PROFESSIONAL SUMMARY

Full Stack Developer with professional experience in Angular development, REST API integration, and backend development using .NET Core and Entity Framework Core. Builds full-stack applications with Next.js, React, Node.js, Express.js, Prisma, and PostgreSQL, with a focus on maintainable code and secure, responsive user experiences.

TECHNICAL SKILLS

Frontend: Angular, React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Design
Backend & APIs: .NET Core, Node.js, Express.js, REST APIs, JWT, Role-Based Access Control (RBAC)
Databases & ORM: SQL Server, PostgreSQL, Prisma ORM, Entity Framework Core; MongoDB (project exposure)
Libraries & Tools: Zod, TanStack Query, React Hook Form, TanStack Form, Git, GitHub, Figma, Chrome DevTools

PROFESSIONAL EXPERIENCE

Efficient Software Solution | Software Developer | Aug 2025 - Present

- Develop and maintain Angular features using reusable components, services, and modules while following team coding standards.
- Integrate REST APIs and manage data flow between frontend interfaces and backend services.
- Contribute to backend APIs and business logic using .NET Core and Entity Framework Core.
- Collaborate with developers and QA engineers using Git throughout the software development lifecycle.

SELECTED PROJECTS

GearUp | Sports & Outdoor Rental Platform | Live Site | Client Code | Server Code

- Implemented JWT-based Customer, Provider, and Admin access with HTTP-only authentication cookies.
- Built equipment browsing with search, category and price filters, rental dates, and order tracking.
- Created provider and admin dashboards for inventory, rentals, user management, and Stripe payments.

Tech: Next.js, TypeScript, Tailwind CSS, TanStack Query, React Hook Form, Zod, Stripe

AssessFlow | Recruitment Assessment Platform | Live Site | Client Code | Server Code

- Developed candidate assessments with MCQ, written, and coding questions plus autosave and resume support.
- Built recruiter tools for assessment setup, invitations, submission review, and manual evaluation.
- Implemented company and problem management, reporting, billing, and payment workflows.

Tech: Next.js, TypeScript, Node.js, Express.js, Prisma, PostgreSQL, Redis, JWT, Zod

Deliverix | Delivery Management System | Live Site | Client Code | Server Code

- Built operational workflows for order management, dispatch, and driver management.
- Added delivery tracking and proof-of-delivery features for delivery operations.
- Developed reporting, notifications, and audit activity features for operational visibility.

Tech: Next.js, TypeScript, Node.js, Express.js, Prisma, PostgreSQL, JWT
